PREFACE

Upon completing this dissertation, the author is very thankful to have finished the thesis entitled: ‘Relationship between Profitability and Corporate Social Responsibility: Empirical Study for IDX Companies’ as it is required to obtain a Bachelor’s Degree in Accounting and Finance at Bina Nusantara International University. This paper is representing all the knowledge and effort the author had put during a four-year study.

To begin with, the author would like to express her thankfulness to God for his love and blessings. He who brought strength and guidance has helped the author in completing this thesis.

The author would also be delighted to express her admiration and gratefulness to the following people in writing:

1. Mr. Marko S. Hermawan, for his constant support and advice throughout my learning stages, not only for this dissertation, but also for activities outside the curriculum.
2. Mr. Dezie Leonarda Warganegara, who gave an insightful and inspiring suggestion with regard to thesis methodology.
3. Mr Dominique Razafindrambinina, who guided the author during the first period of thesis making.
4. Ms. Yanthi Hutagaol, who willingly gave her advice in between her busy schedule.
5. All Binus International University lecturers that the author had come across with
6. The author’s parents, who are always, be the author’s role model, and who had consistently encouraged and supported the author to move towards good things in life.
7. Jennifer G.M, who were always there and accompanied the author in bad and good times while completing this thesis.
8. Yunita Wijaya, Livia Ishak, Jarvis Krisna, Metta Ariesti, Jane Santoso, Dian Kartika, Lioniva Emasari, Esika, and Femmy for the friendship and for sharing the difficult moments together in the past four years.

9. Indra Stefanus Widijanta, whose long-distance support and love has lightened up the author’s mood every single day.

They have helped a lot during the process of making this paper. May God bless them all endlessly. However, the author is aware that this thesis is far from perfect and would like to welcome any suggestions and critics. Lastly, the author hopes that this writing can bring benefits to other readers, especially to the accounting and finance literature in Indonesia.
